

A380

From all-inclusive to custom-tailored support solutions

For 45 years Safran Electronics & Defense has been providing and has capitalized on its experience to continuously develop new-generation solutions featuring advanced functions and high reliability.

Today, building on this long experience and proven support services, our products have been chosen for the Airbus A380 flight control systems, landing gear monitoring systems via Safran Landing Systems, and FADEC (full authority digital engine control) systems, via FADEC International, a joint venture between Safran Electronics & Defense and BAE Systems.

- **Certification: EASA, FAA, TCCA, CAAC**
- **A worldwide customer support network**

Safran Electronics & Defense is with you every step of the way, building in the intelligence that gives you a critical advantage in observation, decision-making and guidance.

A380

A wide support network for every customer

OEM

- Safran Electronics & Defense
