

How to help?

Non-governmental and humanitarian organisations have been working tirelessly to help people, affected by recent storms and floods. But they need your help!

We advise you to donate to humanitarian organisations, operating in the public interest in the field of social or health protection; disabled persons organisations, operating in the public interest in the field of protection of persons with disabilities; or charity foundations. Only by helping in this way the income tax exemption will apply.

We have gathered calls by some of the organisations, which are well-informed of the actual situation in affected areas and which can make sure people will receive the help they need the most. The list will be regularly updated.
