

OPEN CALL FOR PARTNERS 2024

1. Educational programmes:

Our educational programmes are aimed at professionals and the general public and offer a hands-on approach to learning about fabrication technologies, materials, design and other know-how that can be applied to their creative practice. We are seeking experts to propose and conduct a workshop or training course that will improve participants' technical and innovative competence, give them new hands-on experience, and enable them to learn new skills at all levels (basic to advanced).

Open call expected: February 2024

Frequency: 1 per year

Implementation: September 2024 to September 2025

Duration: 1 to 4 days
