

EMPOWERING THE NEXT GENERATION OF TECH TALENT

CODING DREAMS, BUILDING REALITIES

IMPACT SO FAR:

4622 Graduates

3660 Graduate Project Prototypes

1447 Women Graduates

5 African Countries Reached

(Kenya, South Africa, Nigeria, Zambia, Tanzania)

80+ Strategic partners spanning the 5 African countries

KEY ACHIEVEMENTS:

- 1MillionDevs4Africa Initiative:
Across 5 African Countries
- Vibrant community of over 10k members
- YES Founders Award
- PLP/YGAP Bootcamp
- County partnership with Kilifi County
- Partnership with USAID Edge Zambia

ABOUT US:

The Power Learn Project (PLP) is a Pan-African social organization dedicated to empowering young Africans with essential tech skills. We focus on training, skill acquisition, talent management, and mobility, enabling youth to secure meaningful livelihoods. Through decentralized tech training, we catalyze transformative change, equipping them with future-ready skills.

THE PROGRAM:

The Power Learn Project's flagship program, # 1MillionDevs4Africa is dedicated to empowering 1 million young software developers. This comprehensive 16-week online training covers an array of modules:

- Python
- Dart with Flutter
- Database programming
- Web technologies
- Soft skills

THE CRITERIA

To qualify for the PLP Software Development Scholarship, you must have:

- Internet access
- Basic computer skills
- Be over 18 years old

PLP COMMUNITY:

The Power Learn Project Community is a dynamic hub of opportunities and knowledge-sharing, embodying our commitment to transformative experiences. Through events like

- Power Hacks (Hackathons)
- Power your mind (Wellness sessions)
- Power your future (Financial literacy)
- Career fairs

We empower our members with diverse skills and connections, fostering holistic growth and development.

EXPERIENCE THE INSPIRING JOURNEYS OF PLP LEARNERS IN AFRICA

**AUDREY OTIENO WAGAH
KENYA**

I'm immensely grateful for the transformative journey in PLP, where I rediscovered my life's purpose and ignited a dormant passion

**RIDHIWAN MSEYA
TANZANIA**

Thanks to PLP, I've transformed from a coder to a software developer with strong business acumen

**KEAMOHETSI MOLETSANE
SOUTH AFRICA**

PLP provides invaluable opportunities like hackathons and future internships that enrich the student experience

**SHAANDRE COLBECK
ZAMBIA**

Beyond the technical training, the support from instructors and fellow students has been invaluable

EMPOWER FUTURE TECH LEADERS

PARTNER WITH US:

Reach us on

partnerships@powerlearnproject.org

Amplify Your Impact: Join forces with us to reach over 1 million budding tech enthusiasts.

Nurture Talent: Fund scholarships for aspiring tech leaders, enabling access to quality tech education.

Guide Aspirants: Participate in mentorship programs to inspire and lead the next tech generation.

Bridge the Digital Gap: Provide crucial tech infrastructure - Internet access and hardware.

Create Opportunities: Partnering with us opens doors to job prospects for our graduates.

Boost Startups: Support tech-focused entrepreneurship and cultivate innovation.

Influence Policy: Collaborate on government initiatives to drive digital skills development.

Engage Business: The corporate world can help shape the future of technology and education.

VISION 2024:

Our goal for next year is clear:

- To empower 15,000 software developers.
- Launch upskilling courses covering Django framework, Introduction to Blockchain, React framework, and Javascript.
- Broaden our network of valuable partnerships.
