

Why Talkdesk Plecto?

Broadcast your Puzzel data in real-time so you can turn your performance insights into action. Plecto's real-time streaming integration gives you the fastest way to stay on top of your Puzzel KPIs.

1 Plecto streaming is the fastest way to stay on top of your Talkdesk data

Bring together your most important KPIs on real-time dashboards, for instant visibility into calls, SLAs, queue times and more. Use our streaming integration for the fastest possible way to see your Talkdesk metrics.

2 Transform insights into impact

Plecto transforms static numbers and scattered datasets into real-time, impact data visualization so your team can always stay on top of performance and quickly react to any performance trends.

3 Motivate and engage your team

Plecto goes beyond a standard dashboard tool. Combine dashboard visualization with motivating gamification features to create a culture of healthy competition and engagement.

Here's why our customers choose Plecto

"I use Plecto in our 1:1s, we use it on the sales floor, and I use it to check conversion rates and activities. Plecto is very customizable—you can do anything with it in terms of finding a solution to suit your needs. So that's wonderful!"

Alexandra Francis
Global Inside Sales Director, Secomea

"Gamification just works wonders out here to make sure people are having fun and staying motivated. You can see it in competitions; it's live and you can see that it's very motivating."

Emil Pedersen
Performance Specialist, Telmore

"The best feedback we have is the acceptance. Our sales agents are happy to see how they work, as they can compare themselves. This is the best success we have seen, that our front line is completely accepting Plecto and they are happy to have it there!"

Remo Pastori
Sales Manager, Sunrise
