

# Recherche Data Gouv, a national infrastructure present on the European scene

**Recherche Data Gouv**  
contributes to the setup  
of the European network  
of trustworthy data repositories  
*And this, through its involvement  
in the FIDELIS project from 2025.*

**Recherche Data Gouv**  
joined the EOSC Competence  
Centres network  
and leads the first French national  
Competence Centre within the  
Skills4EOSC project.

# WHY

## share research data ?

Find and reuse your data, manage it better, select the data to keep, share or destroy to reduce the digital footprint of your data.

Increase the citation rate of your publications by sharing the data associated with them\*.

Research data  
are recognized as a research  
product in their own right.

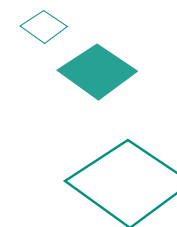

*\*The citation advantage of linking  
publications to research data (Colavizza G.  
et al – 2019) <https://arxiv.org/abs/1907.02565>*

*Research Data Gouv is included in the  
strategies of the Ministry of Higher Education  
and Research and financed by the National  
Fund for Open Science.*

# An ecosystem for sharing and opening research data

*Federate, Support, Share,  
Open, Reuse*

# RECHERCHE DATA GOUV

*An ecosystem built by and for  
higher education and research institutions  
to support you in managing, sharing,  
and opening your research data.*

300 mobilised  
colleagues

80 +  
institutions

*for a more cumulative science  
accessible to all!*

## a national research data platform

That is, a sovereign solution for  
depositing, publishing, reporting,  
discovering, making research  
data accessible and reusable  
thanks to:

a national research data  
repository;

[entrepot.recherche.data.gouv.fr](https://entrepot.recherche.data.gouv.fr)

a catalog of data published  
on the repository itself or on  
external repositories.
