Introduction

After selecting your dataset, you can:

- Add, modify, delete files
- Modify/complete the metadata of the dataset
- Modify the terms of use as well as the access authorizations.

There are two ways to do this:

- Via the “Edit dataset” menu (option 1)
- From the “Files” tab (option 2)

Option 1 - Via the “Edit dataset” menu

This menu allows you for a dataset:

1- The different options available in the “Edit dataset” menu

Steps to add one or more files

- After selecting your dataset, click on “Edit dataset” menu
- Click on “Files (Upload)”
- Click on “Select Files to Add” or drag and drop files
- Complete the file name and description
- Click on “Save Changes”

Option 2 - From the "Files" tab

It is also possible to modify a published dataset via the “**Files**” tab by clicking on the two buttons “**+ Upload files**” and “**Modify files**”.

2 - Modify a published dataset from the "Files" tab

Steps to add one or more files

- In the "Files" tab, click on "+ Upload Files"
- Click on "Select Files to Add" or drag and drop files
- Complete the file name and description
- Click on "Save changes"

Steps to delete one or more files

- In the "Files" tab, select the file(s) to delete
- Click on "Edit Files"
- Click on "Delete"
- Confirm the removal of the file(s)

Republishing the dataset

Any changes require publishing the dataset again!

Consider resubmitting for review or republishing according to your rights.
